

## Curriculum Development Team Training

### Instructional Scenario

---

**Title Ideas:** Create an Interactive Multimedia Presentation

**Duty/Concept Area(s):** 6670-96/Exploring Graphics and Interactive Media

**Scenario:**

You are tasked with creating a Public Service Announcement (PSA) on a topic of your choice to share with your fellow students. This presentation will be shown during homeroom announcements.

**The presentation must include the following:**

- Slide 1 should have the PSA statement and an important fact.
- Slides 2-4 should have at least two facts listed.
- Slide 5 should be the conclusion, listing one fact and then restating your PSA statement.

**The interactive multimedia presentation should include**

- an engaging opening
- logical organization
- a special-effect technique or transitions
- interesting sounds and images from a variety of sources
- short sentences, lists, or key points
- concise use of language
- an effective closing.

**Big Question(s):**

- How can an interactive multimedia presentation help inform your audience about your topic?
- What skills can you use to convey the information and keep your audience interested?

**Focused Questions:**

- How do you choose a topic?
- How do you decide what facts to present?
- How do you decide what special effects to use?
- Where do you find images for the presentation?

**SOL Correlation:**

English 9.6, 9.7, 10.6, 10.7

**Project-Based Assessment:**

**Create a presentation that meets the following requirements:**

### Curriculum Development Team Training

- Five-slide presentation.
- Same background (not white) for each slide and a different picture portraying the gravity of your topic on each slide
- Suggestions for each slide:
  - a. Slide 1 should have the PSA statement and an important fact.
  - b. Slides 2-4 should have at least two facts listed.
  - c. Slide 5 should be the conclusion, listing one fact, and then restating your PSA statement.
